MAREK VČELÁK

Frontend Developer

📞 **+420 732 127 835** @ **vcelak.marek@gmail.com** 🔗 **https://github.com/VcelakMarek**

📍 **Brno, Czech Republic**

ABOUT ME

I am Frontend Developer with 2.5 years of education in web development. My main focus is on React and Next.js application development. I have also experience in using TypeScript, Tailwind CSS, React Query, Storybook, MUI, Axios.
I am looking for my first job in development, where I can apply and expand my skills in a collaborative team.

PORTFOLIO

WORK EXPERIENCE

Inventec (Czech), s.r.o.

📅 03/2021 - Present   📍 Brno, Czech Republic

IT Technician for SMT production

- Basic SQL tasks such as writing queries to retrieve, insert, update, and delete data from databases
- Installation and maintenance of computers and printers
- Server services maintenance
- Regular maintenance and troubleshooting of PCs, printers, and other hardware devices
- Provide technical support to end-users, resolving hardware, software, and network issues

MAIN PROJECTS

GitHub Finder

🔗 https://vcelakmarek.github.io/Interview_Project/

Responsive web application created as part of an interview project

- Allows users to search for GitHub profiles and view repositories and Organizations
- Explored new technologies like React Query and MUI during development
- Includes error handling mechanisms for a smooth user experience

Invoice app

🔗 https://vcelakmarek.github.io/Invoice_app/

Designed to help you manage your invoices

- Create, edit, delete, and update the status of invoices
- Form validation
- Filtering invoices by status
- All changes are automatically saved to LocalStorage

Book Collection

🔗 https://book-collection-one.vercel.app/

Next.js application, created as an interview assignment

- Retrieves book data from an external API
- Includes an admin section for editing, deleting, and adding books

Tic Tac Toe

🔗 https://vcelakmarek.github.io/Tic_Tac_Toe/

The Tic Tac Toe application is a digital adaptation of the classic game

- Choose between Player vs. Player (PvP) or Player vs. CPU mode
- Select your preferred mark (X or O) before starting the game
- Track the winner's score to monitor progress

SKILLS

React Next.js TypeScript Tailwind

React Query Storybook Axios

Prettier JS MUI SCSS CSS

GIT NPM HTML
